FINASTRA

FINASTRA CORPORATE BANKING CONFERENCE

SHAPING A DIGITAL PATH TO SUSTAINABILITY

Join other financial industry professionals to discuss the latest trends, challenges, and opportunities facing financial institutions today.

Although sustainable finance has been with us for more than a decade, its pace of growth in the finance market over recent years been nothing less than extraordinary. Today, it is one of the first topics of conversation in most financing discussions.

We are excited to explore this topic with you as well as emerging trends and technologies that can help you improve the digitalization and automation of your operations.

FORUM AGENDA

TIMES ARE IN GMT (UK TIME)

09:00 AM

Registrations and Welcome Coffee

09:30 AM

Welcome Address

Session 1: ESG and Green Lending

09:40 AM

Keynote: The green opportunity

Jay Mukhey, Head of ESG at Finastra, shares his perspectives on why ESG is the key to preserving the long-term viability of our environment and building a better future for all.

10:00 AM

Fireside chat: The future of lending is environmentally sustainable: public vs private sector perspectives

The unprecedented growth of sustainable finance offers a significant and unique opportunity for financial institutions. Hear from Isabel Fernandez, EVP for Lending at Finastra, and John Flint, CEO at UKIB, as they discuss public and private sector perspectives on how the future of lending is environmentally sustainable.
